As fellow court reporters and agency owners, we have the utmost respect and regard for Judy Stevens and Stevens-Koenig Reporting. Judy, her reporters, videographers and staff are consummate professionals at all times. Whether they have a minute's or a month's notice to report a deposition, when we are networking depositions with Stevens-Koenig, we have peace of mind, knowing our clients will be taken care of in the personal and professional manner they are accustomed to.

Judy's hands-on business practices and philosophy mirror that of our agency and ourselves. Her relationship-oriented attitude provides our clients the services they need and expect in the deposition environment without any missteps along the way. In an industry rife with agencies where the client doesn't always come first, Stevens-Koenig Reporting is a breath of fresh air, bringing experience, quality and competence to every deposition they report; our clients feel as though they've never left home.

We value our relationship with Judy and Stevens-Koenig Reporting and look forward to continuing to work with them for many years to come.
